

DECLARATION CONCERNING PIP RANGE OF CHRISAL PRODUCTS

Hereby, I, Corrie Gielen, General Manager of Chrisal NV, confirms that our PIP range of products have been screened by the FOD, Belgium (Federal Authority Services), entitled for these matters.

This range of products has been qualified as normal cleaning products and in this qualification has no restriction at all to be marketed in the European Community.

The MSDS in attachment and produced by an independent lab ECACHIM confirm these products are cleaning products that need no special permissions to be marketed in the EC.

The bacterial strains that are used in these products have been tested according to SGS norms and have been considered safe for human, animal and environment. The products does not contain modified microorganisms genetically or presentation of the technical sentence conclusive by the commission National Technical of Biosafety (CTNBio).

Signed, Lommel June 18, 2008

Corrie Gielen
